Event brief:

“Sharing knowledge is a beautiful gift.”
“Help the planet, stop making plastic a habit”

As part of our commitment to environmental responsibility, our school proudly participated in the **Interschool Recycling Championship**, organized in collaboration with **ITC Group** and **BBMP (Bruhat Bengaluru Mahanagara Palike)**. The initiative aimed to spread awareness on waste segregation and promote responsible recycling habits among students.

The event featured an **interactive session** by Ms. Mansi from ITC Group, who highlighted the rising environmental challenges caused by plastic waste. She spoke about the alarming increase in pollution levels in Bengaluru and stressed the urgent need to curb single-use plastics and improve segregation practices. To put these lessons into practice, a campus recycling drive was organized, where students collected newspapers, plastics, and other recyclables. Recycling, as emphasized, helps conserve natural resources, reduce landfill waste, and lower greenhouse gas emissions. It also promotes a circular economy where materials are reused instead of discarded. The enthusiastic participation of our students reflected their dedication to the principles of reduce, reuse, and recycle, in line with the vision of a **“Clean City, Green City.”**

The championship further encouraged **healthy competition among schools**, turning sustainability into a collective mission. It inspired students to adopt eco-friendly habits, preparing them to be responsible citizens and future change-makers.

We extend our sincere thanks to **ITC Group**, **BBMP**, and all supporters of this initiative. Most importantly, we are proud of our students, whose active involvement made the campaign a success. We hope this experience inspires them to continue working toward a greener, cleaner future Bottom of Form
